# ABOUT ME

## WHO AM I ?

My name is Wedad Mohamed Al Nuaimi, Known as Wedo. I'm an Emirati Graphic and Multimedia Designer based in Dubai.

Everything started from when I was a young little kid, I used to be the little artist in the family. I had that hobby of drawing and coloring, I remember when I used to draw on papers and give them to my mom and dad, to my older sisters, and even to my uncles and aunties.

Today, I call myself as a pro designer!  
And this started when I have taken the  
Basic Design course. I fell in love with  
Adobe Illustrator. And started illustrat-  
ing more things and trying out new stuff  
until I knew what I want. So this lead me  
to start my designing business with the  
support of my friends and family.

And since I am a good designer, I am  
trying to make out new things .. & learn-  
ing new tricks ..

This portfolio is my progress book to  
keep up my progress in illustration and  
animation work, and how things are  
working out with me throughout my  
journey with design. And Yeah, I love  
coffee.

# PAINTING

## HOW IT WORKS

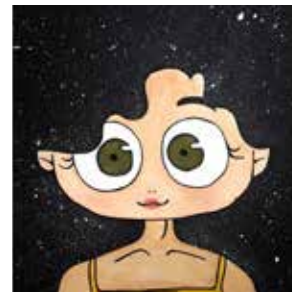

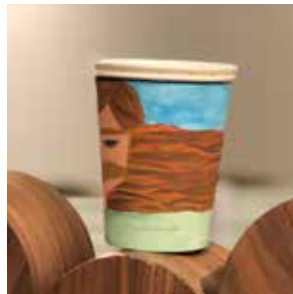

I have been amazed with colors since I was a young child. I became attached to colors which lead me to have more interest in art, and get to specialize in something related to art.

There are some days that make me crave painting so bad, so the first choice is to visit "Sketch Art Cafe" and let my creativity go right on a disposable cup and hang it up there with the other cups of other people. Otherwise, I grab my paints and start messing my room until I come up with something good.

## SKETCH STUDIO OPENING CEREMONY EXHIBITION

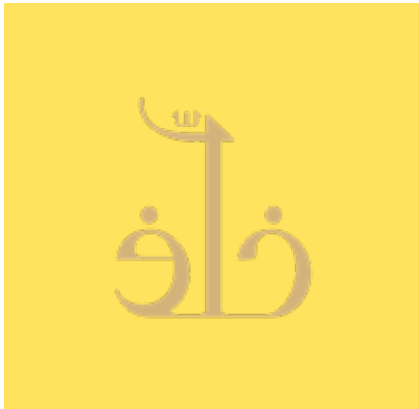

Sketch Art Cafe, Dubai made an art exhibition for the official opening of Sketch Studio, and one of my cups, besides seven other cups of seven other artists, was chosen from between hundreds of cups. They have contacted me to give me the opportunity to have one of my artworks hung in the exhibition.

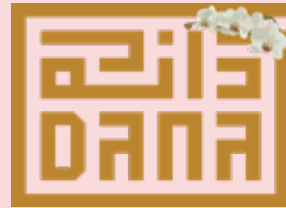

# LOGO DESIGN

## @CREATIVWEDO

I started my designing business in designing logos on January 2017. I was motivated by Stefan Messam, my "Basic Design" course professor. He taught me that the harder you work, the best you achieve. Since then, I've had a strong connection with Adobe Illustrator, until I mastered it.

# ILLUSTRATIONS

## ILLUSTRATIONS

Working with Adobe Illustrator is my all-time favorite thing, especially when it's about drawing things digitally. Here are some of my vector art illustrations.

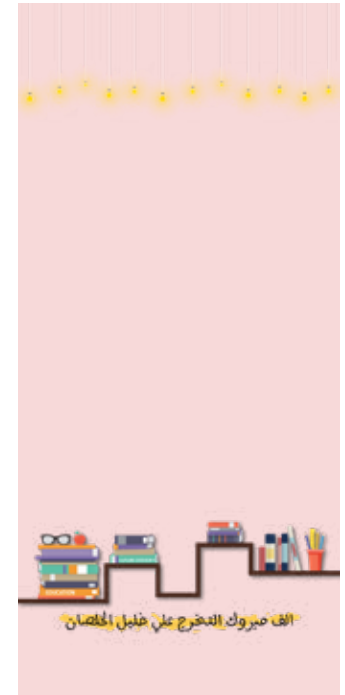

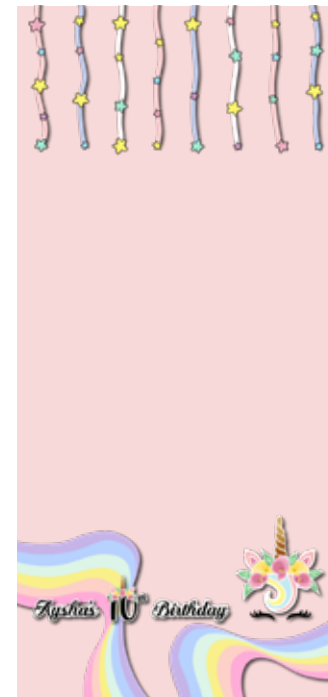

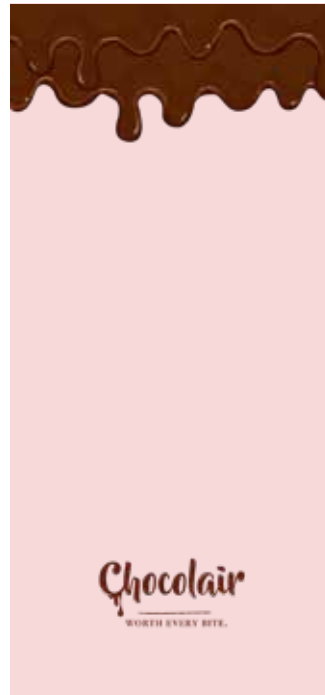

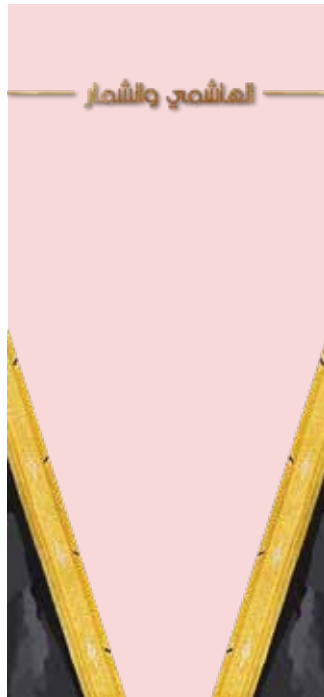

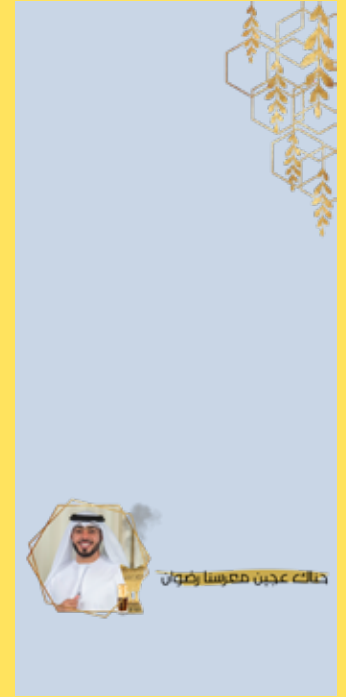

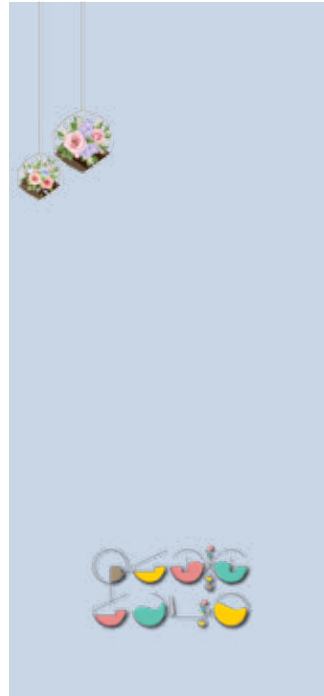

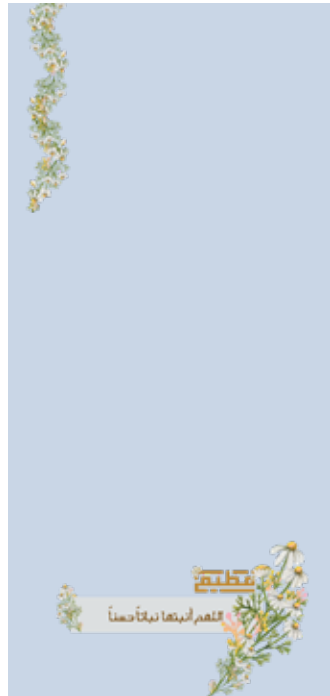

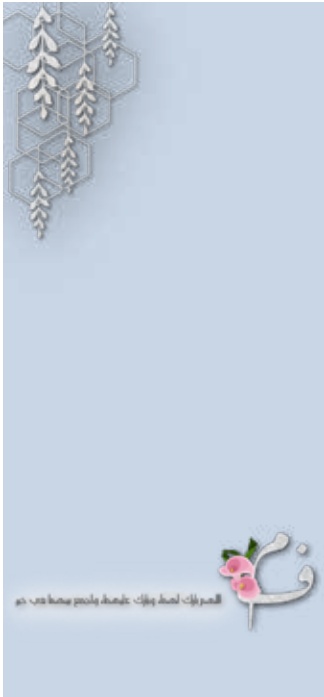

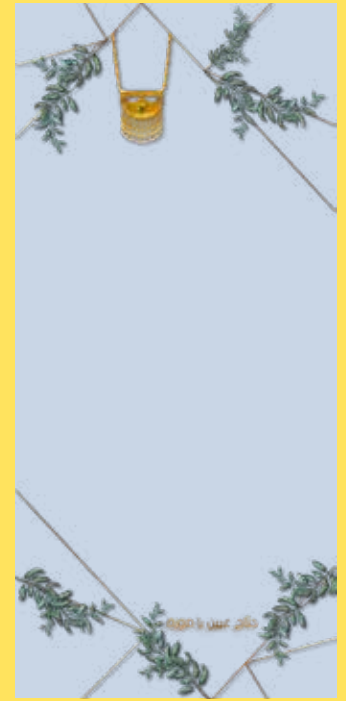

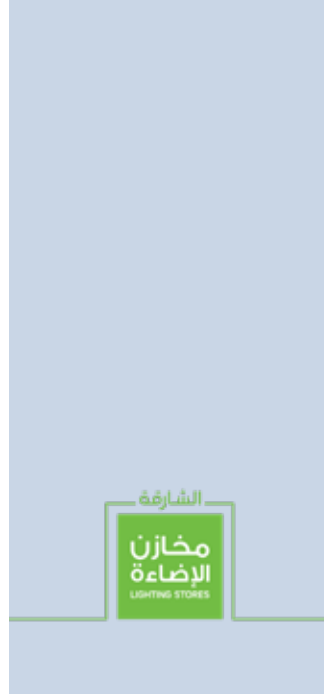

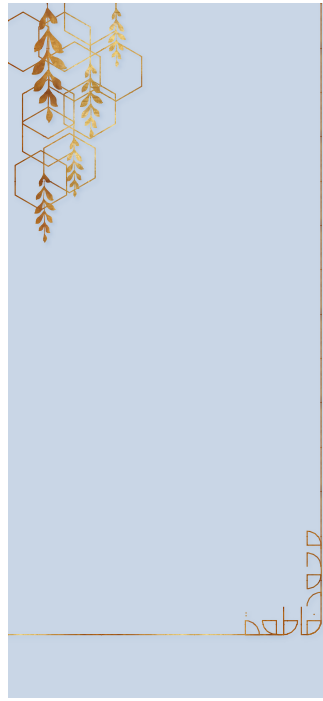

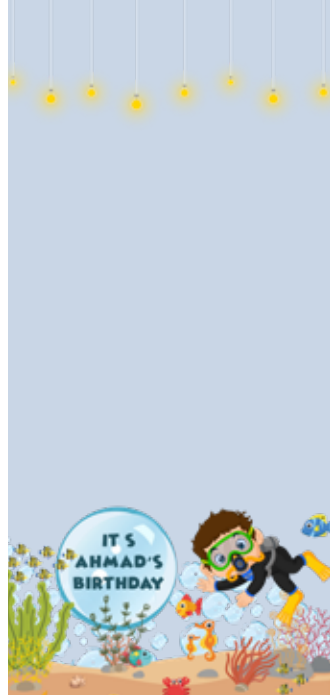

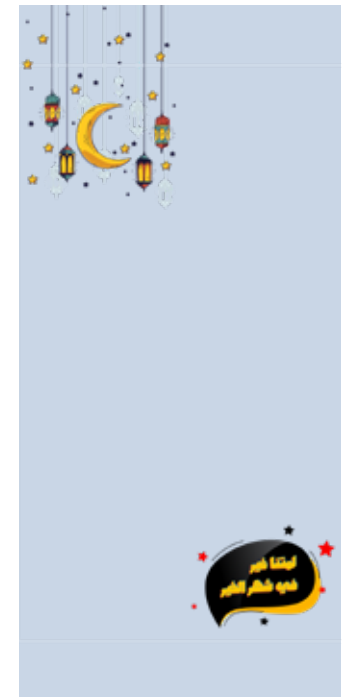

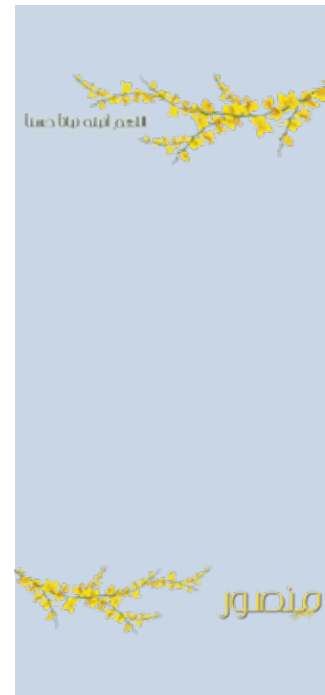

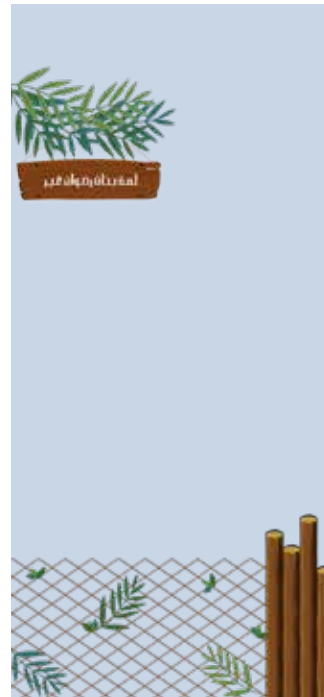

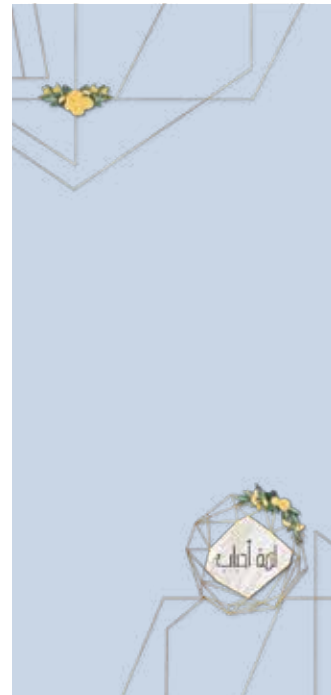

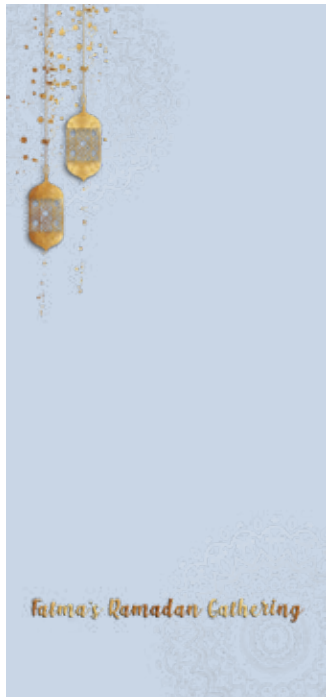

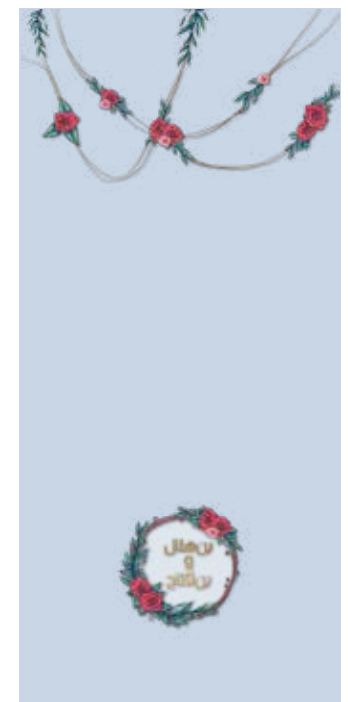

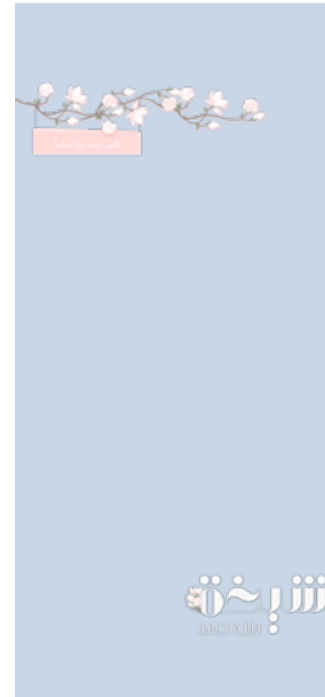

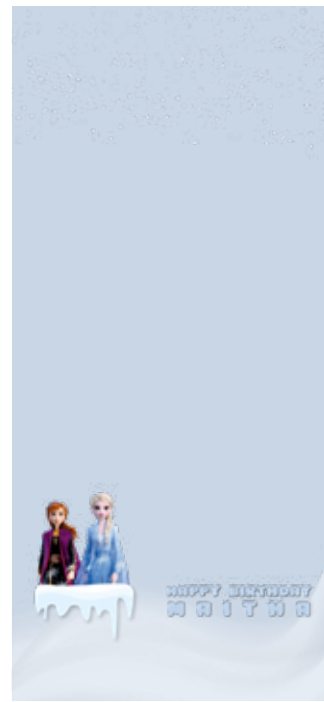

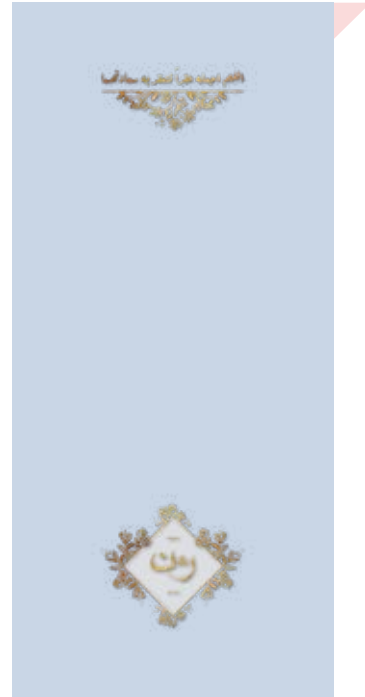

# SNAPCHAT GEOFILTERS

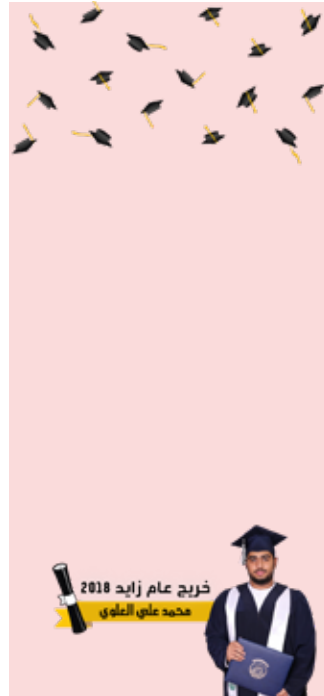

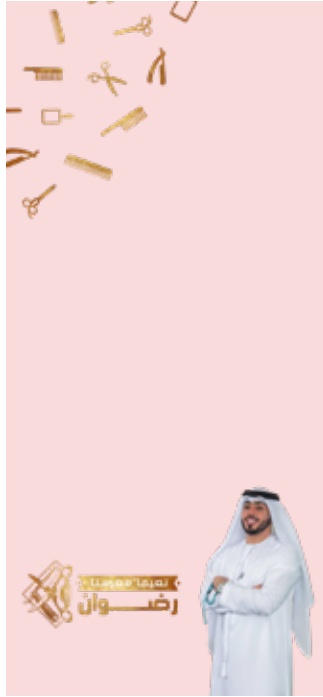

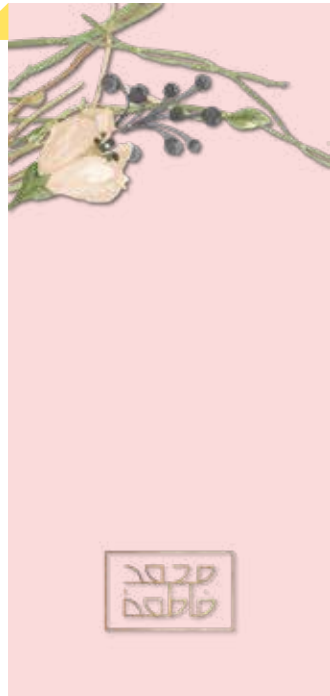

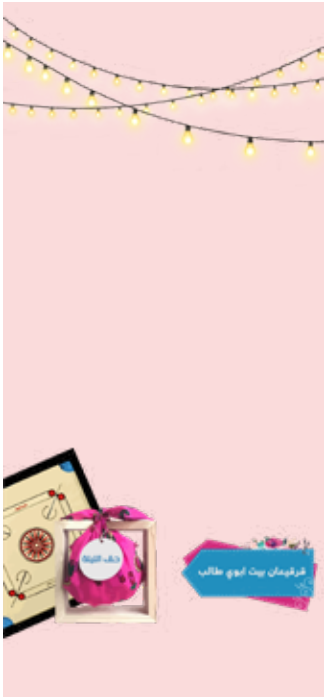

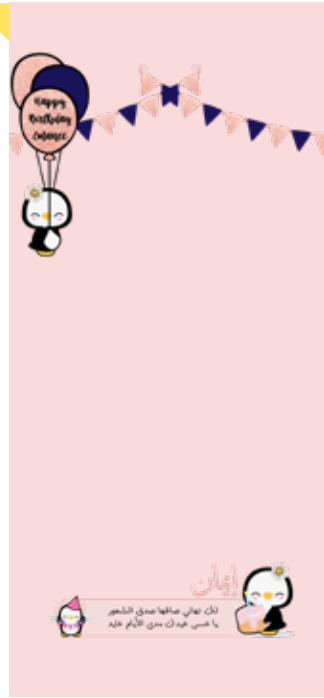

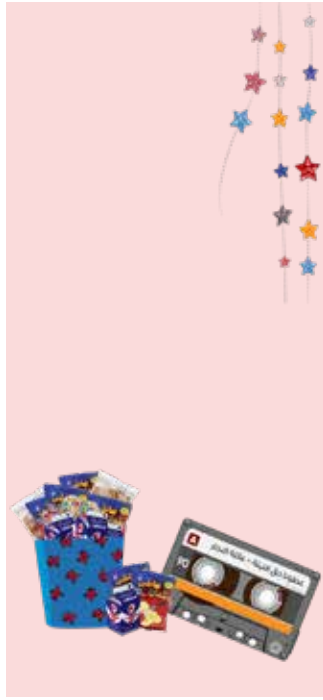

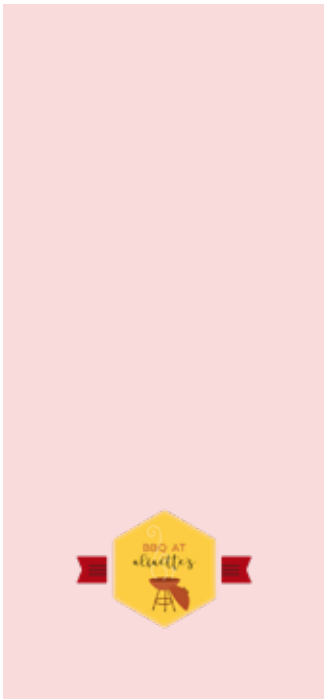

## FILTERS

Designing snapchat geofilters is a fun activity, especially when you're doing it for an event. I have started designing snapchat geofilters even before I learned about Adobe Illustrator. I used to design some geofilters for Dubai, but none of them was approved. I have then started designing event-based filters. Since I started designing filters, I have started receiving a lot of filter-design requests.

# SHORT ANIMATIONS

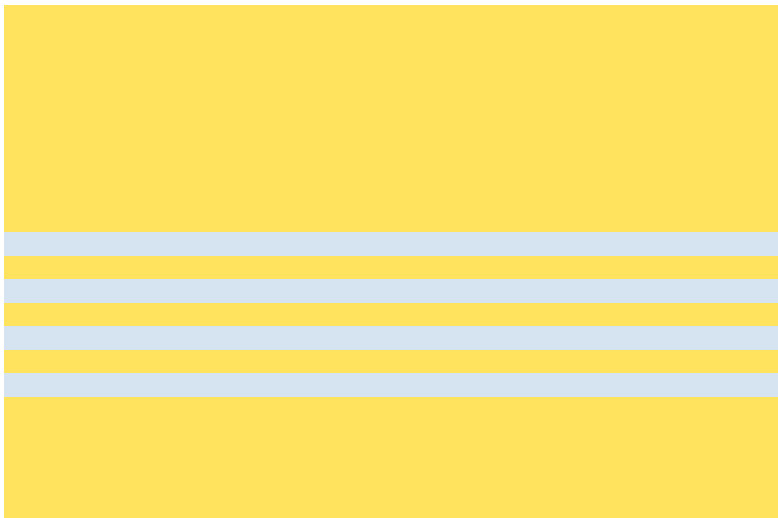

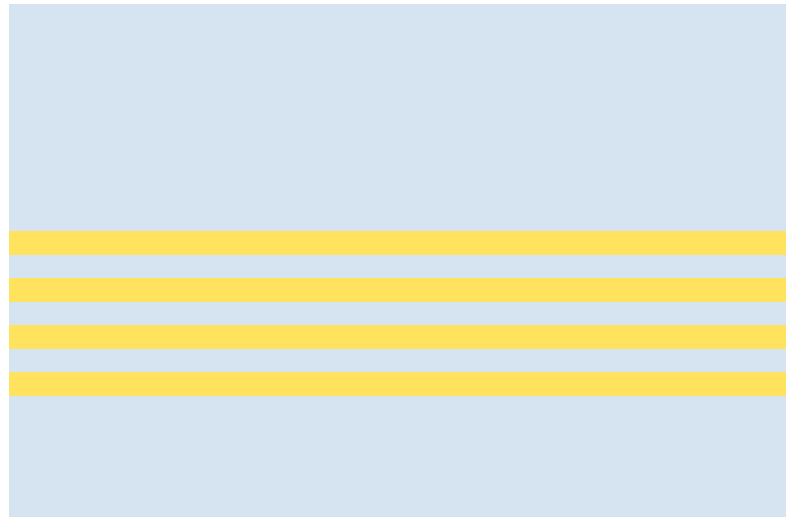

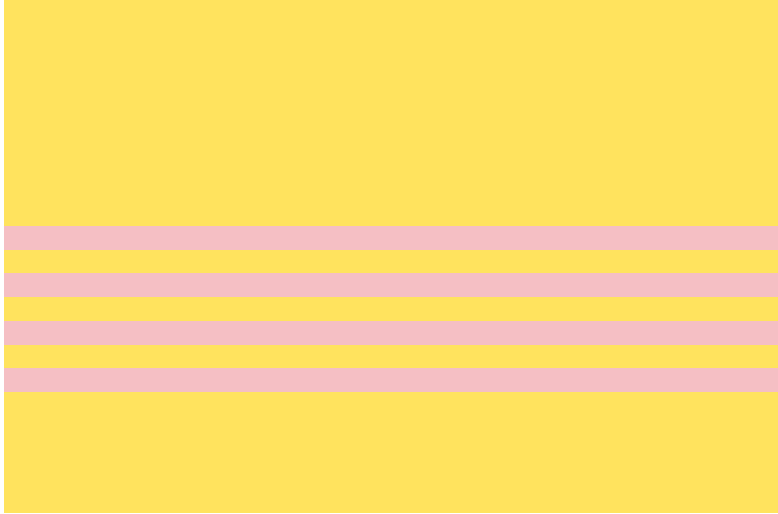

## A N I M A T I O N S

Designing short animations are very fun and beneficial, but the problem is that they need a lot of time to make something that is very short. You will find all of my short animated videos on my youtube channel:

# WORKSHOPS

## PAINTING ON CANVAS BAGS

I conducted my first workshop on 16 November, 2019 about the basics of drawing on canvas bags. I touched on several points, including the uses of the canvas bags, types of paints used to paint on canvas bags, the brushes used to paint, suggestions of local and online stores to purchase your tools from, primary colors and the color wheel, and lightening and darkening colors (shade & tint). The workshop was coordinated by Our Media Group, and took place at their studio in Dubai.

# PRINTED WORK

## OTHER PRINTED WORKS

I have made so many printed work during my studies and those two were my favorites:

- Postcards : Postcards to help people buy coffee for charity to help kids in Africa in their learning.
- Deck of Cards : I have designed a whole different deck of cards (card game) inspired by pop art style, minimal style, and abstractionism in producing whole a new design of the same deck of cards game.
- A booklet designed for little kids with advices to show them how to save water instead of wasting, in addition to fun facts and a word-search game.
